

# Senior Project Proposal

**Name:**

**Date:**

**1. Description:** Give a brief overview of the whole project. Who is the client and what is he/she looking for?

**2. Scope:** How many pages, if it is a web site. Who is going to create the content? What is included?

**3. Technology:** Is it going to be a static site? WordPress? Something else? What tools will you need? What resources do you need?

**4. Challenges:** What do you see are going to be the toughest parts? What do you need to do to surmount those challenges?

**5. Not Included:** Where do you draw the line on this project? What is not included? How will you avoid or deal with scope creep?
